Eating for Two

Name: _____

Class: _____

Score: _____ / 8

NO MORE THAN THREE WORDS - Eating during pregnancy

No.	Sentence
1	Nourishment: The developing baby can take the _____ it needs from its mother.
2	Physical changes: Before pregnancy, one woman's nosebleeds were rare. During pregnancy, they happened _____.
3	Cravings and guilt: A late-night _____ illustrates how strong an urge for food can feel.
4	Advice for the early months: Rather than punishing herself for cravings, a woman should show herself _____.

11 **Why can a pregnant woman have nutritional difficulties even when her baby gets what it needs?**

- A The baby relies mostly on food eaten before pregnancy.
- B The baby can draw needed nutrients from the mother's body.
- C The mother's need for nutrients becomes less important.
- D The mother's cravings prevent nutrients reaching the baby.

12 **What does the account of changing nosebleeds chiefly illustrate?**

- A Pregnancy can make previous health problems disappear.
- B Food choices can prevent many physical changes.
- C Nosebleeds are the main difficulty in pregnancy.
- D Pregnancy can bring unexpected bodily changes.

13 **Why might some pregnant women feel guilty about a craving?**

- A What they want to eat may conflict with their idea of eating healthily.
- B They may think all cravings show that the baby needs more food.
- C They may find it difficult to tell whether the craving is genuine.
- D What they want may differ from the foods they enjoyed before pregnancy.

Answers written in the margins will not be marked.

14 **Why might a woman especially want chips during the first trimester, according to the therapist?**

- A Her body may be demanding a specific nutrient found in chips.
- B Her earlier food preferences may be returning more strongly.
- C Her body may be reacting to what it perceives as physical stress.
- D Her concerns about healthy eating may be causing the craving.
