10	One humorous observation is that men sharing the chores may result in _____ from women.

11 Which statement best captures the pattern introduced at the beginning of the discussion?

- A Couples generally divide domestic work according to their paid working hours.
- B Time-consuming chores are mainly a problem in places without modern equipment.
- C Women often carry a larger share of household and unpaid care work.
- D Men contribute less at home because they usually work in agriculture.

Answers written in the margins will not be marked.

Answers written in the margins will not be marked.

- 12 **According to the UN Women figures, how much more time do women spend on unpaid care and domestic work each day?**
- A About three hours
 - B About one hour
 - C About two hours
 - D About four hours
- 13 **Which pair of activities traditionally belongs to men's work on Rote?**
- A Caring for children and older people
 - B Cooking meals and sweeping floors
 - C Washing dishes and cleaning homes
 - D Growing rice and catching fish
- 14 **Why do domestic chores take so long on Rote?**
- A Homes are far from the farming and fishing areas.
 - B Washing machines are scarce and running water is unavailable.
 - C Women must attend community workshops before starting chores.
 - D Community leaders require all household work to be done by hand.
- 15 **Why is the apparently fair division of labour on Rote misleading?**
- A Men are responsible for most care work as well as farming.
 - B Women replace their household duties with work in the fields.
 - C Women add farming or fishing work to their domestic responsibilities.
 - D Men and women exchange their roles at different times each day.
- 16 **How is the expression "women's work" presented in the discussion of Rote?**
- A As a negative label for repetitive chores traditionally assigned by gender
 - B As a neutral name for the paid occupations available to island women
 - C As a respectful title for women who manage community projects
 - D As a temporary description of duties performed while men are in the fields
- 17 **What view supports the design of the Superdads workshops in Croatia?**
- A Mothers should leave their careers so that they can rest more.
 - B Only adult men, rather than boys, need to change their domestic habits.
 - C Wealthy countries have already achieved an equal sharing of care work.
 - D Fathers and sons can ease mothers' burden by sharing household tasks.

18 **What can be inferred from the benefits described for mothers when men share the chores?**

- A Domestic work affects only mothers who are pursuing careers.
- B An unequal workload can limit mothers' time for personal goals and rest.
- C Mothers usually value hobbies more than help from family members.
- D Men's participation removes every source of conflict within the home.

19 **Why are careers, hobbies and rest listed in the discussion?**

- A To illustrate different ways mothers could use time freed by shared chores
- B To rank the three activities that mothers value most highly
- C To show that paid employment is the only meaningful form of relief
- D To explain why mothers become less willing to complete household duties

20 **What overall implication is shared by the two NGO projects?**

- A Unequal housework can be solved only in remote communities.
- B Better equipment is more important than changing family attitudes.
- C Fairer sharing of housework can improve the wellbeing of the household.
- D Every family member must perform exactly the same domestic tasks.
